Where architecture and nature merge in a dream project in southern Spain: 6 villas and 26 apartments with views of the Mediterranean Sea, surrounded by native vegetation. Our residences are designed and inspired through our hotel architecture, following the avant-garde essence and using sustainable materials.

A unique architecture with its own identity, as well as an intelligent design and materials of the highest sustainable qualities, are the premises of this project. In keeping with the movement of nature that surrounds them, the apartments take a hexagonal structure, merging with the environment. The spacious properties are divided into two bedrooms, with an elongated sliding door to give residents the choice of dividing the apartments into two parts. The living room and bedrooms have large windows letting in natural light, merging with the wooden that features within the interiors. The Italian kitchen is characterized by a long island of marble carefully connecting with the warmth of the design. The outdoor terrace brings in Mediterranean fragrances, as the interior and exterior blend together becoming one. Every corner of your home will have a scent specially chosen by you.
