Town House Estrella in Castril

This is a very attractive, nicely renovated, traditional townhouse in the village centre of Castril De La Peña. It is built on 4 storeys: basement, ground floor, 2nd floor and attic with mansard back roof. On the ground floor are the living room, kitchen and bathroom. The 2nd floor has 2 bedrooms and the attic level also has 2 bedrooms. The living room has a large back terrace with views of the village and the Cristo del Sagrado Corazón (Christ of the Sacred Heart) statue, positioned high up at the top of the famous Peña de Castril rock. The sunny kitchen is roomy and could be rearranged for eating space, it just needs appliances. The 2nd floor front bedroom has a balcony overlooking the street with views of the Sierra. The 2nd floor back bedroom has a fireplace that could be fitted with a wood stove. The basement has a good sized storage room/workshop and a patio. This house is bright, airy, well built and well maintained. It is located on a small, quiet street just a few doors from the shops. The historic neighbourhoods of Castril are mostly pedestrian, however in front of this house is vehicle access to unload and there is a public parking space across the street. Castril is a stunning village with charming mediaeval neighbourhoods and narrow streets, many of which are colorfully decorated with potted flowers. Castril is located on the edge of the Cazorla Mountain range. The village boasts the beautiful Embalse El Potillo reservoir with its turquoise waters and the nearby Sierra de Castril Natural Park. Castril is truly one of the jewels of Andalusia.
