

Cave House for sale in Castillejar, Granada
15,000€

Cueva Mari Carmen Castillejar

Small troglodyte house to renovate with fantastic views, just 1km from the village of Castillejar. Access is good and includes a dirt road for about 100m to reach the property. The orientation is north-east and faces the surrounding hills and the village. Water and electricity are at the door so easy to connect. The cave house can be converted and enlarged to provide an extra door or a window or both. The patio is large enough to have either a parking space or a small private garden.

This cave house would make a perfect holiday home and/or tourist location in an area that is well worth exploring.
