LUXURY NEW BUILD VILLA IN CALPE WITH SEA VIEW

An amphitheatre layout with a seven-metre high glass façade with panoramic sea views ensures that the magical location is fully utilised, while a two-storey infinity pool brings the outdoors inside. With this project we have created a space that connects with nature and enhances the views and sensations of the local environment, blend-ing in with its surroundings and maintaining the beauty of the landscape...

From the macro, the architecture of the building and the design of the garden, to the micro, the painting of the walls, the pool tiles, the lighting and even the door handles, all the elements have been chosen or elaborated under the supervision of our team of specialists who make up the Signature Projects family.

If privacy is the new luxury, this five-bedroom super villa is a new high water mark. It features three independent but interconnected suites with their own bathrooms and dressing rooms, plus two further bedrooms with their own individual bathrooms. The property's exceptional facilities include a huge terrace with panoramic sea views, dif-ferent living areas, a private gym and spa with gym, sauna and indoor heated pool, a cinema room, a wine cellar with bar and lounge, landscaped gardens and a domotic system that allows us to control the entire property and create automatic scenes.
