

5 bedroom Villa for sale in Algorfa, Alicante
499,000€

This unique detached villa is oozing charm and character and sits on a very large, tranquil plot.

The grounds are accessed via large gates. The garden is low maintenance and has a lot of established shrubs and plants. There is ample parking space for several cars or even a motor home. The back of the property has a beautiful seating area with views over the pine forest. Part of the forest belongs to the property but can not be built on as it is protected land. Also at the back of the property is a pool area. The pool has been constructed but not finished, meaning the new owner can finish it to their own taste and design.

The main feature of the villa is the lounge. It is the central hub of the property and has a vaulted ceiling. A corridor surrounds the lounge and gives access to all of the other rooms.

There is a very large, separate kitchen which leads to a utility room.

There are 5 double bedrooms and 4 bathrooms.

All of the main rooms in the villa have hot and cold air-conditioning to cater for the hot and cooler months. There are solar panels on the roof for hot water.

You could move straight into this delightful property as it is being sold mostly furnished throughout.
