

Country House for sale in Huescar, Granada

95,000€

Brilliant group of 10 small houses and 4 cave houses all together in a private area of 10.606 m², located next to a large lake. This group of houses is begging to become a very special little holiday park or an extended Bed and Breakfast. The location is wonderful, on a sort of a hilltop, so all houses have a beautiful view. The lake of San Clemente in only a few minutes on the other side of the dam. The houses must all be restored and vary from ruin to a reasonable state. Also there are several caves underneath in which rooms can be made. Each cottage is unique and has a different build. There is room for a private terrace for every house and on the land also, to make a pool. The houses are situated in a fantastic location surrounded by nature, with the neighbours at sufficient distance. And very sunny. Good access roads. All in all a very special location with many opportunities to live and to start a business in Andalusia.

Characteristics of the property are:

10 Farm houses and 4 caves

Water - available on the plot

Electricity - available in the street

Sewage - septic needed

Internet - is possible here

Constructed - 764 m²
