

4 bedroom Villa for sale in Estepona, Málaga

930,000€

The development is characterized by giving the client the option of configuring the villas without limitations, from choosing the facade that best fits the tastes of each one, a multitude of distribution options for each floor of the house and an extensive list of materials to choose from, some options would cost extra and others would not. There are 20 fully independent villas with private garden, pool and garage, semi-basement with natural light and fully finished, ground floor, first floor and solarium. Due to the singularity of the promotion and to all the existing configuration options, the sale will be made off plan and will be built as the sale goes forward; for some of the plots there are already licenses and for the rest they need to be requested. The villas are configurable from 2 to 7 or even 8 bedrooms for the larger villas and from 4 to 6 bathrooms.
