

Land for sale in Mazarron, Murcia

79,995€

Wonderful opportunity to purchase a large plot of land with the remains of a house. This plot benefits, in part, for its natural irrigation from the waters of the Rambla de Cañete, which is located to the south and west of the plot. The plot is located between La Cañada Honda and Los Lardines. As mentioned, there are the remains of a property sat on the plot; a build of one level with a facade of 14m². This consists of a house and porch. Whilst this is a rural location, you are only a twenty minute drive to the beaches of Puerto de Mazarron, Bolnuevo etc. The hamlet of La Majada with a population of approximately two hundred people has a church, restaurant and bar and a local shop operating from someone's house, plus a medical centre. There are numerous hiking and cycling trails in and around the area giving you the opportunity to take in the beautiful fauna and flora. The town of Mazarron is nine kilometres away and has all local amenities you would expect to find in a town, including the post office and town hall. La Majada is approximately forty five minutes drive from Murcia International Airport (Corvera) and Alñicante is approximately an hour and fifteen minutes.
