This is a bespoke turnkey service which includes a plot of your choice on which we will create your dream home in a beautiful location with outstanding views with quality control and supervision by well respected architect. Build cost to suit most budgets & specifications Individual Bespoke Villas - Local Quality Spanish Builders - Respected Spanish Architects We have been established in Spain since 2002 and from the start we specialised in country areas as well as the coast. Over the last 21 years we have built up our knowledge and contacts and have a good relationships with many local builders and architects. Our favorite country areas are in North West Murcia and North East Murcia because both offer beautiful countryside with some stunning views yet are not remote or isolated. In each of these areas are small towns and villages with full amenities and expat communities that are not large enough to spoil this part of real Spain. Also both areas range from 45 minutes to 90 minutes from the coast and the airports of Alicante & Murcia on excellent roads. We usually can offer a wide choice of legal building plots in excellent Spanish locations and of different sizes to suit most requirements. Many of these plots will be in or close to small hamlets with beautiful views and will have mains water, electric, sewage and telephone already in place and be approved by the local planning office. You can
