

3 bedroom Townhouse for sale in Salinas, Alicante

149,995€

This is almost impossible to describe other than amazing. It is really one large 3 Bed 2 Bath Apartment above an enormous garage that would house 7 or 8 vehicles but can be made into an entire ground floor apartment or anything you choose. Then there is a 70% built second apartment also above the garage that is currently being used as a Summer Kitchen for when the whole family comes round for paella on a Sunday afternoon. I have never seen anything quite like it, absolutely central to the small but lovely town of Salinas and walking distance to everything this is a unique property. Take a look at the photos and the video, all taken without filters or any special lenses for a far better idea than I can describe. It's perfect for two families or even three. Oh, I nearly forgot that there is a rooftop patio which is 100% private.

-  3 bedrooms
