Inbetween mountains and sea

Just a stone's throw from Mojácar, between the mountains and the sea, you have Macenas. This beautiful area is built as a typical Spanish beautiful village. With white houses built on a hill you have a wonderful view of both mountains and sea, nice paths to walk along and pool areas. Here you can relax by the area's pools, walk to beautiful beaches and venture out in Andalusian nature. Just below is the starting point for the popular Macenas-La Mena hiking trail. There you walk along the Mediterranean Sea and enjoy a spectacular view over a couple of hours. Here you park the car on your own driveway just outside the front door, in an area where you can relax. With a security guard by the area entrance, only residents and their guests are allowed in. When you entering your home you have the stairs to the ground floor to your left and a W.C to your right. Straight ahead you have the living room and dining area in an open floor plan, as well as large patio doors that runs almost wall to wall. An extra luxury detail is that they have installed automatic openers for the blinds. With white walls and the large glass doors, you have a huge light intake, and with only fields behind, nothing hinders your view. Outside the patio you have plenty of space for a dining area so you can enjoy your dinner in the evening sun overlooking the sea. Both from the living room and the hall next to the W.C you have an entrance to the kitchen. The kitchen is beautifully designed in wood and has only modern appliances. Here you will not only have plenty of storage space, it also includes both a dishwasher and a washing machine at the time of purchase. Almost from the ceiling upstairs to the floor downstairs, four long windows run to maximize the natural light. On the ground floor opposite the stairs you have bedroom number one. Here you have your own small patio. In the hall outside the bedroom you have built-in wardrobes that run along the wall. Further downstairs you have the complete bathroom. Here you have a classically decorated bathroom with heated towel rack and a modern roof shower that gives a rain-like shower experience. Next to the bathroom we have bedroom number two. Inside you have built-in wardrobes and large patio doors leading out to the garden. Back to the hall opposite the bathroom you have the largest bedroom. Here you enter directly into a small hall where you will come to the bedroom on the left hand side.
