

4 bedroom Villa for sale in Pinoso, Alicante

394,000€

This superb new 4-bedroom villa with swimming pool will be built and finished to your specifications using high-quality materials. You can choose the plot that suits you best to build your villa. We have plots in various locations, such as Pinoso, Aspe, Hondon de las Nieves, La Romana, etc. It is also possible to build on an urban plot (+/- 500m²) or a rustic plot (10,000m²). The villa will have an AA energy label, so you can be sure of a well-insulated home. Benefits of this new build :

- 1.- STRUCTURE, FAÇADE AND ENCLOSURES. Foundation footings will be laid in accordance with the recommendations of the corresponding technical projects. The structure will be of one-way reinforced concrete with joists and vaults or reticular. Solarium with ceramic floor tiles or non-trafficable flat roofs (depending on the model) will be of the inverted type with slopes for the correct evacuation of water, thermal insulation and waterproofing, with a gravel surface finish. The external enclosure will be made of autoclaved aerated concrete blocks (Ytong) or thermo-clay block rendered with water-repellent mortar in a chamber. The exterior cladding will be made with single-layer mortar. The interior lining will be of ceramic brick or laminated plasterboard on a structure of galvanised steel profiles, with thermal insulation. The technical characteristics of the materials used and their correct installation on site provide the building with thermal and acoustic insulation that has an impact on the degree of comfort of the villa.
- 2.- COATINGS AND FINISH
- 2.1.- GENERAL FLOORING OF THE HOUSE There is a choice of top quality porcelain stoneware flooring in a wide variety of colours, up to 20/m².
- 2.2- PAINTS AND FINISHES The walls will be painted with top-quality smooth plastic paint in a choice of several neutral shades.
- 2.3- ROOFS The ceilings will be finished off with a continuous suspended false ceiling made of laminated plasterboard, except for the laundry room, where a suspended ceiling will be installed, made of smooth laminated plasterboard, for maintenance of installations. All horizontal surfaces shall be painted white.
- 2.4- INTERIOR DIVISIONS The interior distribution of the villa will be done with ceramic partition walls or laminated plasterboards. In wet rooms, the plasterboard panels shall be water-resistant.
- 3.- KITCHEN Kitchen according to project, completely furnished with high quality furniture, melamine finish in homogeneous colour
