

8 bedroom Townhouse for sale in Redovan, Alicante

419,969€

Some houses are not just built with stone, wood or plans... they're built with stories. This home was born from the love of a family, a shared dream between two people who, in 2001, bought a piece of land at the foot of the mountains to create their refuge — their home. In 2005, they made that dream come true: a solid, beautiful house full of character, designed to grow, to gather, to enjoy. From the very first step onto the property, it's clear this is no ordinary house. Every corner reflects care, every room radiates harmony. On the ground floor, a semi-finished apartment awaits new ideas: a space for guests, for working from home, or for a grown-up child to take their first steps into independence. From here, you step straight into the heart of the outdoors: a cosy summer kitchen, a pool with mountain views, and a terrace made for sunsets that stop time. The main floor was the soul of the home: three bedrooms, a spacious kitchen where meals were shared, and a living room filled with laughter and life. On the top floor, the future is yours to design — a workspace, a separate apartment, a creative haven... all beneath sloped ceilings that gaze calmly out toward the horizon, offering the peace only nature can provide. This house was a home, a haven, a place of growth. Now, it's ready for someone new to write the next chapter. And if you're someone who feels the energy of a place the moment you walk in... this house will speak to you.
