399,900€

These are very special villas where we have combined Mediterranean design with natural fibre elements to recreate the feeling of being on a peaceful island. It is a different and unique residential complex in our area with slightly curved lines and a carefully designed island style.

OUTDOOR AREAS The villa complex is divided into two phases. In each phase, there are two types of villas: Santorini and Mykonos. The Santorini villas are three-bedroom, two-bathroom villas. These villas have an architectural style typical of the Greek island of Santorini, with white walls and light ceilings. In addition, these villas are equipped with all modern comforts, such as heating, fully equipped kitchen, TV and internet connection. On the other hand, the Mykonos villas also have three bedrooms, but have three bathrooms instead of two. These villas have an architectural style typical of the island of Mykonos, with white walls and flat roofs. In addition, these villas are equipped with all modern comforts, such as heating, fully equipped kitchen, TV and internet connection.

INDOOR AREAS Both the Santorini and Mykonos villas feature interiors designed with luxurious details and finishes. The white walls of the villas contrast with the details and noble materials, which give a warm and welcoming touch to the space. The villas have spacious and bright rooms, which are equipped with large windows that allow natural light to enter. The bathrooms in the villas are elegant and spacious. They are equipped with high quality fittings, such as stainless steel taps, large mirrors and spacious showers. In terms of lighting, all villas are equipped with a combination of natural and artificial lighting. The artificial lighting is soft and warm, creating a relaxed and comfortable atmosphere. In addition, large windows and sliding doors allow natural light to enter during the day, contributing to the feeling of brightness in the space.
