

1 bedroom Apartment for sale in Torrevieja, Alicante

138,000€

First-floor apartment in a four-story building with an elevator and light well. Only one dwelling per floor. Originally, the apartment had two bedrooms, one facing outside and the other towards the light well, providing plenty of light and ventilation, and one bathroom. The very bright living room-kitchen faces a well-located street with access to all the town's central services, just a step away from the promenade and the new shopping center at the port. It is ideal for investors, both for renovation for sale and for rental. Currently, it is being used for a business activity and is ideal for those companies that need an office in the center of Torrevieja, near notaries, the town hall, etc...
