

2 bedroom Townhouse for sale in La Romana, Alicante

119,950€

Myriad Properties are delighted to bring to the market this immaculate 2 bed 1bath property in the lovely area of La Romana. As you enter the property you will be taken back by not only how light and bright the property is due to the thoughtful way the property has been renovated but you are also instantly hit by the pure quality of the work. As you enter via the front door into a lovely hall you find the master bedroom to your left which is a great size with a small dressing room area that I feel is crying out to be an ensuite shower room and to the right of the hallway is the guest bedroom which is also a great size for family members or guests. There is also the large family bathroom with good sized shower and a sun tunnel which pours natural light into the area. As you get to the end of the hallway you are greeted with a stunning open plan lounge diner and kitchen with modern gloss units and high quality appliances. The internal renovation of the property is so well thought out and done to the highest of standards to create light pouring in and to give the comfortable and homely feel. And if the inside was not enough to blow you away as you go through to the rear courtyard once again you are hit with beauty and peacefulness as the rear of the house does not back onto a road so although you are in the village the sound of nothing but the birds transports you into thinking you are in the Spanish countryside. There is plenty of room for having a BBQ and entertaining friends and family a good size utility and a storage room which houses the oil tank and boiler for the central heating and a electric water heater I cannot say it enough this property is simply stunning and in immaculate condition inside and out and I honestly don't think you will find a better one. The property is situated in a quiet part of the village but has all the amenities for day to day living and a couple of minutes walk to bars restaurants shops doctors and much much more. A must see property in every sense.
