See the offer here, under our ref 41055:41055-PB - Country house with land near Yecla. Don't hesitate and contact us to arrange a viewing! PLEASE NOTE: that on the title Deeds there is only a plot of 4,447 m². There is no building registered on the plot at the land registry. There was a chance that this can be fixed at the point of sale with a couple of certificates from an architect, but there is no guarantee. The property is being sold as is and the seller is not willing to carry out the required work. Please be clear before arranging viewing with us. From the research that we have done the property has existed since the 1950s but over time it was left to go to ruin. The current owner bought the property in 2006 and by 2016 had carried out all the repair work to bring it to its current state. No action has been taken by the town hall since then and as such the minimum period of 4 years has transpired so the property is deemed to be prescribed. Having said that, because it is so close to the boundary on the north side, there is no guarantee that the land registry will allow it to be registered. This is why the current owner is selling it as seen. If you have any questions or queries about the above please don't hesitate to contact us to ask for more detailed information.
