Homes designed to elevate the way you live

Not all houses are created equal. Some truly redefine everyday living.

Located in La Cala de Mijas, this private gated residential development has been designed to offer more than just a home — a refined lifestyle.

The project comprises 68 terraced houses with 3 and 4 bedrooms, thoughtfully arranged within an exclusive community. All homes are south-facing to ensure maximum natural light throughout the year. Each property features a private garage, terrace, and garden, and many enjoy beautiful sea views. Several units also include basement levels with parking and storage areas.

The architectural concept has been carefully developed to create harmonious layouts, generous volumes, and bright interiors that seamlessly connect with the surrounding environment. Expansive terraces and gardens enhance the Mediterranean lifestyle and allow year-round outdoor living.

The communal areas transform the development into a peaceful oasis, offering carefully designed amenities for those who value comfort, privacy, and quality.

Set in one of the most desirable areas of the Costa del Sol, La Cala de Mijas combines Andalusian charm with beaches, golf courses, full services, and excellent connectivity.

Homes designed to shape your future.
