

6 bedroom Townhouse for sale in Yecla, Murcia

46,000€

Townhouse with three floors in Yecla, ideal as a full renovation project, located just a short distance from the town center. This property offers great potential, both as a permanent residence or as an investment, thanks to its spacious layout and possibilities for redistribution.

The house features six bedrooms, one of which has direct access to a terrace, providing natural light and an additional outdoor space. There is also a very large room that offers multiple possibilities, such as creating additional bedrooms, a gym, a workspace, or any other use according to the buyer's needs.

The property includes a living room with a fireplace that can become the heart of the home after renovation, as well as a kitchen with direct access to the interior patio, allowing for a practical and functional layout. The private interior patio provides a versatile outdoor space with many design possibilities.

There is one bathroom located in the ground floor patio, currently in need of complete renovation.

The property requires full renovation, allowing the future owner to customize every space and develop a fully personalized project from scratch.

As an added value, there is the possibility to acquire an adjoining garage, with the option to create direct access through the opening of a door, significantly increasing the functionality and value of the property.

Asking price: 46,000 euros.

An excellent opportunity for those looking for a character property with great potential in a central location in Yecla.
