Guardamar del Segura is one of the main tourist centres in Costa Blanca South, along with Orihuela Costa, Torrevieja and Santa Pola.

Guardamar del Segura has 11 Km of coast with a relatively flat topography, and as such has eight extensive beaches of golden sand, some of these being nudist beaches, such as Los Tusales beach, and has a beautiful pine wood which acts as a brake between the series of shifting dunes that border practically the entirety of the Guardamar coastline.
