Welcome to an exceptional project of detached villas with large plots, in a strategic enclave in the southeast of Spain, which combines the tranquillity of the countryside with the proximity to the sea and the city, as well as to the main services and good road communications with the main airports. Relaxation and tranquillity begin from the moment you arrive at your home.

It is the perfect place for outdoor living areas, including the possibility of making your own swimming pool and setting up your own garden to your liking. Detached villa with 3 bedrooms and 2 bathrooms, can be adapted to the needs of any family. The key to this house is the light and openness to the outside of all its spaces. The house is divided into two floors, which perfectly separate the day and night areas. Porches, terraces, and numerous windows flood it with light and fresh air, being totally exterior in all its rooms. In addition to the light, the space is also important, very well used, minimising passageways and thinking about storage, with fitted wardrobes in all the bedrooms.

On entering the property through the porch we find an entrance hall which leads to the enormous livingdining room with access to the terrace, on the right hand side from the main entrance there is a kitchen with a window which connects to the livingdining room and stairs which lead to the laundry room and solarium. As for the rest and service areas, there are three double bedrooms, one of them (the master bedroom) with ensuite bathroom and dressing room. Finally, there is another bathroom for general use. Our after sales team is on hand to help you turn this amazing house into a home, so all you have to do is move in. Call us now at 950466112.
