

3 спальная комната вилла продается в Freila, Granada

179.000€

Villa Lola in Freila

This stunning property sits on a hilltop surrounded by 360° of rolling hills and mountains, with views of Lake Negratin in the distance. These hills are part of the natural Badlands that are characteristic of this region. The property feels remote yet it's just a couple of minutes drive to the motorway and 5 minutes drive to the traditional Andalusian village of Freila. The house, patio and garden are fully fenced with a privacy gate. A wide entrance driveway leads to the patio, garden areas, 2-car carport and the house. A porch runs along the front of the house. Around the back is a covered patio.

The house has a living/dining room, kitchen, hallway, 3 bedrooms (one ensuite) and 2 bathrooms. There is a pellet burner in the living room and heating and cooling units overhead. The living room and master bedroom are installed with ceiling fans. Connections to gasoil have been installed in all of the rooms. The house is sold fully furnished, including the patio furniture, and is ready to move in.

The house and garden are surrounded by cypress trees, some mature and some young trees. The garden areas are irrigated and are planted with 6 palm trees, 1 cherry tree, 1 apple tree, 1 pear tree and laurel. There are 2 dog houses (at the side of the house and next to the garden area). The property totals about 8500m². About 660m² is fenced. The land outside the fencing includes various caves that can be reformed into cave houses.

Bedrooms - 3
