

6 спальная комната Деревенский Дом продается в Fuensanta de Martos, Jaén

90.000€

This is a rare opportunity to own a remote 280m² build, renovated, 6 bedroom Cortijo with a generous 29,935m² of land that is surrounded by nature with all its beauty. It does have one small draw back or for some an interesting quirk. You need a 4X4 to get to it and to ford a stream or cross via a narrow footbridge. The property is accessed via 3km of track and then down a slope and across the stream. The beginning of the track is about 10 mins from Fuensanta de Martos in the province of Jaen, in Andalusia, Spain. The front door of the property opens into the living room with the large fireplace on the right and at the far end on the left are the stairs to the first floor. Ahead is a massive kitchen fitted with cupboards and two large pantries at one end. Off from the living room and towards the back of the house is a bathroom and next to it a bedroom or study. On the first floor you have a double bedroom on the right then there are a further four bedrooms accessed via a corridor that goes from one end of the building to other. Attached to the end of the building is an outhouse with a bread oven at the back. The land at the front is fairly level and behind is steep and mountainside. This is a great property to escape to and switch off from the normal stresses of life. Also perfect for off grid living. Electricity is connected and there is spring water and well water.
