Experience Country Living in Agost: A Finca Full of Potential to Create Your Ideal Home

Less than one kilometre from the town centre of Agost and surrounded by a beautiful natural landscape, this rural property built in 1990 offers charm, space, and enormous potential to become the home you've always dreamed of.

Set on a 2,000 m² plot, the property invites you to imagine endless possibilities: a Mediterranean garden, a private pool, fruit trees, a vegetable garden, or simply large open spaces to enjoy peace, privacy, and the beauty of the countryside.

The main house, with 287 m² of built area, stands out for its solid structure and excellent layout — perfect for a full renovation that reflects your personal style. Spacious rooms, thick walls, and an orientation that ensures natural light throughout the day make it an ideal foundation for a custom project.

Outside, a covered porch of 33 m² provides the perfect setting to relax outdoors, enjoy breakfast with mountain views, or share evenings with family and friends.

The property also includes a separate 70 m² building, ideal for multiple uses such as a guest house, studio, workshop, home office, or even a small rental unit. This additional space adds versatility and great value to the property.

One of its main advantages is that a construction project and environmental impact study have already been submitted, meaning much of the bureaucratic process is already underway. You'll save time and can move forward with your renovation plans much sooner.
