MONTE design

The houses that we carry out have a high-class construction, through the use of top quality materials.

HOUSE QUALITY MANAGER

The construction system of the houses is the result of industrial concrete modules. The foundation has a waterproof sheet in a structure frame.

The exterior walls have a thermal insulation in a polystyrene wedge shape setting.

All interior walls can be changed at the client's choice, that is, the division of the rooms can be adapted to the client's needs.

On the cover waterproof sheet is placed to ensure its tightness towards the rain.

The exterior finish of flooring and cladding are of high quality, being able to choose between a traditional design or a modern design.

All our houses have pre-installation of air conditioning ducts, pre-installation of gas heating and solar panels for hot water.

The exterior carpentry is made of PVC and double glass to ensure adequate comfort and design of the house.

The exterior carpentry is a natural wood at the customer's choice.

If the client wishes, the pool construction of the chosen dimensions can be carried out.

The exterior cladding of the house adapts to the plot where it is located, performing everything necessary for good use and enjoyment of it.

All our project can be adapted to suit the client.

Hondon Valley is a very well located area where you have all services and amenities for your day a day living such as shops, bars, lovely restaurants, doctors, school, gym, etc.

Please, do not hesitate to contact us for further details or to arrange a first meeting with our architect and builder to discuss the project of your "Dream Villa in the Sun".

Living in Macisvenda

Macisvenda is located in the Eastern Region of Murcia, on the border with the Valencian Community. The peculiarity of its semi-desert climate offers a landscape of oasis in which the rambla palm tree stands out haughtily. The source of the river Chicamo gives this municipality some spectacular landscapes that will transport the visitor to film scenes, where he can discover from very arid areas where the loamy lands are capriciously sculpted by erosion, to rich fertile orchards, natural water sources, hundreds of hectares with millenary olive trees and mountains.
