

Landa till salu i Sedella, Málaga

388.000€

Terrain of about 63000 m², situated in the countryside on about a 10-minute-drive from Arenas and 15 minutes from Sedella. The coast can be reached within 25 minutes. This property has incredibly marvellous views on the pretty white washed Andalucian villages, the mountains including the Maroma and even some parts of the Lake of Viñuela. There are currently 2 plots on the terrain but more plots can be created. Electricity and water are nearby. The plot contains a ruin that makes construction possible given the current law. There are 2 access roads to the property. An ideal opportunity for someone who needs a spacious location for a quiet life, for example having horses or other animals. In the future more houses can be built on this terrain which makes it also a very good investment!
