Ground floors with large private gardens, first floors with spacious terraces, and fabulous penthouses with terraces, solariums, and sea views. The first phase will be delivered in the summer of 2026 and will include blocks 1 and 2, all common areas, and underground parking with storage. All homes will be fully equipped and ready to move into, with Mediterranean designer furniture and decor, appliances, a separate laundry room, air conditioning, underfloor heating throughout, ducted air conditioning (hot/cold), bed linen, and kitchenware. As is our custom, it comes with a large parking space and a private storage room in the basement. In particular, every thought has been given to ensure all owners can enjoy and relax without having to leave the complex, at any time of the year. Therefore, the complex will feature a large outdoor pool (adults/children), a playground, and green areas. In the basement, there will be a spa with a heated pool, therapeutic massage jets, a sauna, and a gym.
