We love the Casas del Mar urbanization, and this fivebedroom duplex with its wonderful terrace will steal your heart. From the spacious kitchen or the living room you can access a large 70m2 corner terrace with views of the sea and the gardens, facing south to have sun all day.

On the same floor there is a storage and laundry room, and a guest toilet.

Going down the interior stairs, we arrive at the ground floor with five rooms. One is a double bedroom with an ensuite bathroom and closet area, then we have two large single rooms, and another double, all with access to the private garden.

This floor is completed with another room ideal as an office or games room, and another full bathroom.

The Casas del Mar urbanization is very exclusive and safe, thanks to the 24hour security service and the maintenance team, which give the feeling of living in a luxury resort.
