

4 sovrum Radhus till salu i Antequera, Málaga

299.000€

This stunning 326m² build, 4 bedroom property is not quite what it seems from the facade. The property sits just a short walk to the center of historical Antequera, in the Malaga province of Andalucia, Spain, with great access to all the beautiful town has to offer whilst still having amazing countryside views. To the front of the property there is plenty of room to a park car and also access in to a private garage. Once inside this property just keeps going set out over 3 floors the main floor has a good size living room, a well fitted kitchen, ground floor bedroom which is currently used an office and a full family bathroom. This ground floor continues to a smaller sitting room which opens on to a private terrace and separate utility room. On the first floor there are 2 very spacious bedrooms to the front of the property and plenty of storage space a full family bathroom and a master bedroom which opens on to a second terrace taking in those spectacular views over the countryside. The property continues in a basement level which is totally unexpected with a mezzanine floor area that could be used as an office or a gym and below a fantastic space to entertain with friends and family with some amazing brick finished archways this area is full of character with rustic chandeliers and a water feature. Again this ground floor has another surprise and opens on to a partially covered patio where the current owners have wooden framed pool to relax on those hot summer days. This is a lovely property which really needs to be seen to be appreciated.
